

HELP THE TRUST WITH MAINTENANCE – HUNTER HUT AT _____

(There is no hut genie)

Inside

- Is the fire working okay?
- Is new grate required. Yes/No
 - Huts with Sparky fires
 - Ashpan handle present ?
 - Ash rake present?
- Clean windows & wipe down windowsills and window joinery (& door glass)
- Clean window tracks of dead flies (huts with sliding windows)

Has the hut got:-

- Hearth shovel
- Hearth brush.
- Broom
- Axe
- Shovel
- Poison Box New poison blocks required – Yes / No (circle)
- Visitors Book
- Information Folder

Outside

- Check spouting is clean and make sure water is getting to tank
- Clean water tank filter.
- Tap working okay?
- Wash down veranda clearlite to remove green Verdigris.
- Remove spiderwebs (broom)
- Any meat safe issues. Rusty hinges need oil/WD40– even cooking oil.

Toilet

- Check level of waste below the shute.
- Wash down inside of toilet.

Some hints. Take a little Handy Andy or similar. Few rags for cleaning. A fork is handy for removing dead flies from window tracks. Windows need something to cut the cooking residue Damp newspaper makes a standby window cleaner Dry paper will clear it. Use hut broom/hearth brush to clean toilet, high outside windows & clear lite. If really keen, was the floor.

The cost of transport prevents the Trust doing regular cleaning. We need you to help us.
